GRINDING & SURFACE FINISHING

MEDIA PACK 2027

Precision manufacuring.
Specialist reach.

GRINDING & SURFACE FINISHING MAGAZINE

The industry's only dedicated English-language grinding magazine available in both print and digital formats

Since its launch in 2003, Grinding & Surface Finishing has consistently provided targeted information to a dedicated audience of readers directly involved in grinding and surface finishing applications.

Our website, www.grindsurf.com, complements the printed magazine by delivering regular news updates and promoting upcoming industry events and exhibitions. Online visitors gain access to a wealth of articles and resources to stay well-informed, as well as the opportunity to access relevant web banners and promotional videos.

Connecting with the right audience is vital and Grinding & Surface Finishing offers the ideal channel to reach potential customers. With a dedicated and focused circulation of 13,000 combined print and digital readers, advertisers can be confident that their message reaches their intended audience.

We pride ourselves on maintaining an optimal balance between advertising and high-quality editorial content. The magazine continuously evolves to provide tailored insights and up-to-date industry information. Thanks to our clearly structured, easy-to-navigate features, every advert and article is strategically placed for maximum visibility.

While the printed magazine remains our core foundation, we recognise the importance of digital media for readers who prefer online content. Every issue can be viewed and downloaded directly from our website.

Grinding & Surface Finishing will publish five issues in 2027. We encourage you to follow our LinkedIn page and visit our website for regular updates.

I look forward to discussing how we can work together.

John Barber,
publisher
